

# Roto-Hoe

## Application

*The Roto-Hoe model is designed for all your cultivating needs including tilling chopping and shredding of vegetation. It boasts a nimble, yet powerful engine which is suited for small vegetable gardens, flower beds and border gardens. It is a perfect unit for home, garden and lifestyle block use.*

## Key Features

- **6.5Hp Roto-Tech Proven Reliability OHV Engine**  
Nimble yet powerful for small vegetable gardens and flower beds, border gardens, along walks and raised beds-plus areas needing reverse gear. Heavy Duty Cylinder for extended wear.
- **Cast Iron and Bronze Gear-Driven Transmission**  
Automotive style cast iron and bronze gear-driven transmission is built for long-term durability.  
“V” Belt driven pulley arrangement for forward/reverse selection  
Competitive models with chain drives are simply no match for our legendary design.
- **Rear Mounted Tines / Front Mounted Engine**  
Perfect balance permits JUST ONE HAND® operation and easy turning.
- **10 Inch Diameter Standard Rotating Bolo Tine**  
Legendary tine design for all soil types. Chops and shreds vegetation and other soil amendments for power composting.
- **Power Forward and Reverse Speeds**  
Match tilling speed to the job at hand. Allows for extra maneuverability for very thorough tilling.
- **Power Drive Wheels with High Traction Tires**  
Maintain a steady even pace allowing tines to thoroughly till the soil and provide excellent traction under most tilling and soil conditions. Drive to the wheels’ may be disengaged for intensive cultivation action with the forward motion being governed from the cultivator action.
- **Drive Controls Mounted on Handlebars**  
Easy to reach when tilling; simple and convenient, incorporating safety release for both forward and reverse control.
- **10 Inch Diameter Standard Rotating Bolo Tine**  
Legendary tine design for all soil types. Chops and shreds vegetation and other soil amendments for power composting.
- **Wide Tilling Width**  
Cultivator tyne assembly 450 mm wide and 350 mm diameter.  
Great for medium gardens. Permits use between closely planted rows.
- **Depth Regulator**  
Precisely regulates depth of tilling with one hand.
- **Steel Hood and Flap**  
Helps crumble dirt clods and smoothes soil after tilling.
- **Adjustable Handlebars**  
Adjust to comfortable height for every user.

## Engine Technical Specifications

Engine Type	4 Stroke OHV Gasoline
Displacement	208cc
Max Output	6.5HP/4000rpm
Fuel Tank Capacity	3.6L
Ignition System	Transistorized ignition
Starting System	Recoil starting
Fuel Consumption	340g/kw.h
Oil Capacity	0.6L
Dry Weight	15.5Kgs
Dimension	360 x 310 x 335mm

## Warranty

Comprehensive **Lawn Mower Company** 2 Year Warranty for Domestic use. Commercial use 3 Month Warranty
