

Roto-Aerator

Application

The Roto-Aerator™ model is a very well priced lawn and garden aerator for the New Zealand market. Designed to aerate compacted soil and air restricted lawns, it's very robust and easy to operate and suitable for arduous jobs in the contractor industry. Ideal for landscaping companies, hire companies, lawn and maintenance contractors and affordable for domestic users.

Key Features

- 18" Aerator
- Quality Briggs & Stratton Intek 5.5 Hp OHV engine
- Precision semi-pneumatic wheels with steel ball-bearings
- 450mm core-knife blades (set)
- Well balanced & designed
- Quality fabricated steel chassis
- Heavy duty engagement arm & linkages
- Capable of heavy duty work on hard compacted grounds
- High quality front and rear axles
- Every component is bolted together – No clips used
